Returned back to her family

Collin Klein - Freedom Lead Testimony

Robert Beverly “I am very pleased to announce that this young lady has been returned to her family. As this is a relatively new area of focus for the Texas Defense Force, we are finding, especially with the lawless liberal [REDACTED] landscape engulfing our cities, and inconceivable border policy, this is becoming an epidemic and what this young lady has witnessed is short of devastating.

We can only hope she gets the support she needs to live a normal life one day.

It also gave us a chance to meet some very talented and dedicated individuals in fighting this horrific problem.

Every dad should be furious out there! I sure as hell am!

You better get involved in your child's safety and the recent political crap that we witnessed during our school safety program proposals in schools should make you all wake up and taste reality! It was a joke!
